

XF1 L / S

Product code VISY XF1 L 907 248, VISY XF1 S 907 249

Product name Protective visor XF1 L / XF1 S

Features Ergonomically designed facial visor for multiple use that protects against contamination with dirt, liquids, and bodily fluids. Can be used in conjunction with a face protective mask. Should not be used for protection against mechanical impact or flying particles. Universal size (54–64 cm). Mounted via adjustable elastic head strap. Lens made from thin and highly resistant PMMA material. Shape of the lens designed to prevent fogging. Console made from ABS plastic, suitable for medical use. Optional rubber or foam inserts available. Base model and model with rubber insert can be disinfected in an 70 % alcohol solution. Compact packaging.

Technical data

Materials Console: ABS (suitable for medical use)
Lens: highly resistant PMMA, 0,5 mm thickness, transparent
Head strap: textile, elastic (white or black)

Product dimensions X1F L: 250x206x275 mm, X1F S: 150x206x275 mm

Lens dimensions X1F L: 305x250 mm, X1F S: 305x150 mm

Weight X1F L: 92 g, X1F S: 77 g

Packing Packing unit: 50 pieces
Product packaging dimensions (mm): 255x310x10 (X1F L) / 155x310x10 (X1F S)
Transport packaging dimensions (mm): 400x300x320

PPE category II

Manufacturer Geoenergetika, družba za okolju prijazne energije, d.o.o.,
PE Celje: Lava 7d, SI-3000 Celje

Warning Both protective shield models are designed to protect facial areas against contamination from liquids. Thus, they reduce the risk of a droplet infection. However, due to their design, their use alone cannot guarantee complete protection against viruses, bacteria, or other biological agents. In order to maximize protection against biohazards, they should always be used together with other protective equipment, while following appropriate safety protocols.
